

COLLEGE ACADEMIC LEARNING GOALS

Delaware County Community College has instituted nine College Academic Learning Goals as the core of our general education program. Since the focus is on skills, knowledge and abilities rather than courses, there is no mandatory set of courses that every graduate will take to complete the general education portion of a degree program. Each degree program, career and transfer, has been designed by the College's faculty to meet these goals. The goals are met either by general education courses or by required program courses that have been designed to meet one or more of the learning goals. Each degree program guides its graduates to achieve the College Academic Learning Goals in the way that is most reasonable and helpful to students in that field of study. Some certificates also include CALG-designated courses. The courses that meet the College Academic Learning Goals are part of, not in addition to, the program.

The nine College Academic Learning Goals are:

Critical Reasoning: Graduates will demonstrate critical reasoning. Course List (p. 1)

Diversity and Social Justice: Graduates will demonstrate an understanding of inequality, oppression, power, privilege and the struggle for social justice faced by historically marginalized people. Course List (p. 1)

Global Understanding: Graduates will demonstrate the ability to recognize and analyze global topics and issues. Course List (p. 2)

Information Literacy: Graduates will demonstrate the ability to find, evaluate, and communicate information found in the course of their research. Course List (p. 2)

Information Technology: Graduates will demonstrate the ability to use information technology. Course List (p. 3)

Oral Communication: Graduates will demonstrate the ability to communicate orally by delivering and receiving messages competently. Course List (p. 2)

Quantitative Reasoning: Graduates will demonstrate the ability to apply mathematical concepts and quantitative reasoning to solve problems. Course List (p. 2)

Scientific Inquiry: Graduates will demonstrate a conceptual and a quantitative understanding of natural science disciplines and develop scientific inquiry skills. Course List (p. 3)

Written Communication: Graduates will demonstrate the ability to compose coherent, evidence-based academic writing. Course List (p. 3)

College Academic Learning Goal (CALG) Designated Courses

As of Fall 2020. Please check the Delaware County Community College website for the most up-to-date list.
