

# MATHEMATICS/NATURAL SCIENCE, ASSOCIATE IN SCIENCE (MNS)

Effective: Fall 2016

The Mathematics and Natural Science Program provides a strong foundation for students who plan to attend a four-year institution and major in mathematics or one of the natural sciences. Students who complete the program requirements will be prepared to continue their education in order to pursue academic, research, or industrial careers in such diverse areas as biology, biotechnology, ecology, wildlife biology, chemistry, biochemistry, astronomy, geology, physics, mathematics and applied mathematics. Students are strongly encouraged to meet with a mathematics or natural science faculty advisor and consult with the DCCC Transfer Office prior to course selection to determine the appropriate sequence and level of courses.

## Program Outcomes

Upon successful completion of this program, students should be able to:

- Demonstrate an understanding of mathematical principles and concepts.
- Apply mathematical principles and concepts to the solution of problems.
- Demonstrate an understanding of scientific principles and concepts.
- Apply scientific principles and concepts to the solution of problems.
- Perform selected tasks relative to laboratory experiments in the natural sciences.

## Full-Time Academic Plan
