

2.18 ENGLISH, MATHEMATICS, AND READING RETESTING POLICY

Original Date of Issue: 5/18/2022

Revised:

Students whose English, Mathematics, and/or Reading placement score(s) is (are) fewer than three years old are allowed to retest two times in each subject area before they enroll in a developmental or college-level course in that subject area (ENG, MAT, and/or REA). Same day retesting is not allowed. Students should prepare for their retest. Retests are available through Assessment Services at the Marple Campus or through Student Services at other sites. A student's retest eligibility will be confirmed when a retest appointment is scheduled. The highest score on the placement test for each subject area will be honored.
